

Madras College Environmental Action Day

Help Wanted

To clear this.....and this

The Parent Council is planning to use volunteers to clear three areas at Madras College, the overgrown garden and the silted up burn in the pictures above and a disused drying green at the South Street site. Territorial Army Engineers will provide a JCB to clear the burn and RAF personnel will help with the work, but we still need more volunteers. The aim is to help the Madras eco-club become self-sufficient and we hope to provide them with a cleared area to work with in the autumn.

When: Friday 27 June, 9:00am to 3:00pm

Where: Kilrymont site, St Andrews

If interested, please contact: Henry Paul, 07977-131635 or
